

## CREATING HAPPINESS, ONE CHANGE AT A TIME

### **Every baby needs to be kept clean and dry.**

However, a 2010 study found that 1 in 3 families struggle with providing diapers for their children.

### **Families with children in need often rely on Federal assistance programs.**

However, these programs cannot be spent on diapers and diaper wipes.

### **It is often difficult for food banks and other social service organizations to be able to provide enough diapers to serve needs in the community.**

Therefore, The Northern Virginia Diaper Bank provides a reliable source of diapers and diaper wipes to babies in need in our community through:

- GATHERING diapers and wipes in organized diaper drives.
- COLLECTING diapers from designated community drop off locations.
- PURCHASING diapers at steeply discounted costs with monetary donations.
- STORING donations in warehouse space.
- GIVING donations to nonprofit social service organizations already assisting families in need.
